

# **Uniform Data System (UDS) Website and Reports Training**

***December 16, 2010***

# Overview

- Uniform Data System (UDS) data are available to Grantees from two sources:
  - Bureau of Primary Health Care (BPHC) Health Center Data Website
  - Electronic Handbook (EHB)
- Health Center Data Website
  - What data and features are available
- Electronic Handbook
  - Purpose of the EHB Data Reports
  - What data is available
  - How to interpret reports

# Purpose

- To introduce and demonstrate the functionality of the BPHC Health Center Data website
- To highlight UDS reports and how to access them on the Web and in EHB

# BPHC Website

## BPHC Health Center Data Website

<http://www.hrsa.gov/data-statistics>

# Website Introduction

- User-friendly and displays HRSA programs and accomplishments in a dynamic way
- Improved features of the Health Center Data website provide a better picture of the Health Center Program and the patients we serve

# Highlights

- Health Center Data Website Highlights
  - Grouping data categories
  - Balancing formats, text, and data visualizations
  - Presenting data snapshots and trends
  - Filtering data for comparisons
  - The ability to download, export, share, and print data and charts in usable formats

# Website Links

- HRSA home page:  
<http://www.hrsa.gov>
- Health Center Data Website:  
<https://hrsa.gov/data-statistics/health-center-data/index.html>

#### [Health Center Program: Recovery Act Grants](#)

##### Providing Access to Health Care in the Nation's Most Needy Communities

In 2009, Health Centers cared for

- Nearly 19 million patients, including
- 3.4 million who received dental services
- 758,000 who received behavioral health care

Health Centers also:

- Employ more than 123,000 people in underserved communities
- Leverage more than \$9 billion in other health resources

[Data Snapshot](#)[Demographic Trends](#)[Data Comparisons](#)

Each year HRSA health center grantees are required to report core set of information that is appropriate for monitoring and evaluating performance and for reporting on annual trends. The UDS is the vehicle used by BPHC to obtain this information. Uniform Data System contains the following types of information:

- Patient counts by age and gender, race, and ethnicity;
- Patient counts by income level and third party insurance source.
- Patient counts for special population groups (individuals experiencing homelessness, migrant and seasonal farmworkers and their family members)
- Staff full-time equivalents by position, and encounters and patients by provider type and service type.
- Data on selected primary diagnoses for medical visits and selected services provided
- Data on prenatal care program pregnant and postpartum women patients and their newborn infants.
- Direct and indirect expenses by cost center
- Revenue from service to patients, including charges, collections and allowances by payor as well as sliding discounts and patient bad debt
- Other revenue.

### Health Centers: 2009 At-A-Glance

For 2009, HRSA's health center program achieved the following. For trend detail, select an individual criterion.

Criteria	Current Result
Total number of patients served:	18753858
Total number of grantees:	1131
Number of FTE:	123012

### Health Center Population vs. U.S. Population

	Health Center Program	U.S. Population
Percent by income level		
At or below the Federal Poverty Guidelines	71.4%	14.3%
At or below 200% of the Federal Poverty Guidelines	92.5%	33.0%
Percent by Insurance Status		
Uninsured	38.2%	16.7%
Medicaid	37.1%	15.7%
Medicare	7.3%	14.3%

[State Data](#)

[Reporting](#)

Health center data is collected and published at the national, state, and regional level. Now you can perform basic data comparisons to better understand trends like: how a state compares to the national averages or how one state compares to another.

Currently, you can select one of the following comparisons:

- [State to National](#)
- [State to State](#)

**Submit 2010 Uniform Data System data by February 15, 2011** in order to assure adequate time for review and correction of data errors prior to final submission. Changes to these data will be permitted until March 31, 2011.

Each year health center program grantees report on their performance using the measures defined in the Uniform Data System (UDS). Available technical assistance resources including national grantee calls, help desk responses to questions, on-line training modules, and reporting changes and manuals are compiled here.

[2010 Report Training Schedule](#) (PDF - 154 KB)

[Online training modules](#)

Ten short video modules that explain the 2010 UDS and how to compile and complete your report efficiently.

# UDS Reports Available in EHB

- Grantee UDS Report
- UDS Grantee, State, National Summary Report
- UDS National and State Rollups
- UDS Health Center Trend Report
- UDS Health Center Performance Comparison Report

# Purpose of UDS Reports

- EHB UDS reports are available to grantees, project officers and UDS reviewers
  - They are *not* available to general public or PCA/O
- BPHC uses data for program monitoring
- Grantees use data for program analysis, performance improvement, and as a source for grant application data

# Steps for Accessing UDS Related Reports in EHB

- Log into EHB account
- Click View Portfolio on the left panel
- Find H80 grant and click Open grant handbook (Health Center Cluster)
- Click Performance Report under Submission on the left panel
- Click Search on the right
- Select Submitted under Schedule Status
- Find UDS Performance Report for the year preferred and click View Report

# Accessing Reports (cont'd)

- Click “View Portfolio” on the left panel

REPORTS		
Report Name	Description	Action
UDS Data File in XML	Submitted Raw UDS Data File in XML format.	<a href="#">Download</a> / <a href="#">Email</a>
UDS Grantee, State, National Summary Report	<p>The Summary Report is a 'dashboard' report intended to describe each grantee in a statistical manner. Calculations of key measures are derived from their own organization's current reporting on the UDS. The measures are broken out into two main categories: 1) Demographic and Clinical Data (Patients, Visits, Staffing and Clinical Information) and 2) Fiscal Information (Costs and Revenues) and provide an overall picture of the health center's performance in each of these areas.</p> <p>Formula Guide: <a href="#">UDS Summary Report</a></p>	<a href="#">View</a>
UDS National and State Rollups	<p>The Rollup Reports compile annual data reported by Health Center Program (HCP) grantees. Summary HCP data are provided for patient demographics, socioeconomic characteristics, staffing, patient diagnoses and services rendered, quality of care, health outcomes and disparities, financial costs, and revenues. The UDS Standard Rollup Reports provide the values and measures for universal and grant specific data at the National and State level.</p> <p>Formula Guide: <a href="#">UDS Rollup Report</a></p>	<a href="#">View</a>

# Health Center Trend Report

- Shows 16 key access, quality of care, and financial variables for the past three years
- Shows data for Grantee, State, and National (a separate page is included for each)

UDS Health Center Trend Report - 2009

% Diabetic Patients with HbA1c < 7		50.00%	37.98%	39.77%	39.51%	39.96%	40.03%	39.96%	31.43%	40.00%	47.14%

# Performance Comparison Report (cont'd)

- Compares 19 selected Quality of Care and Cost variables
  - With State and National averages
  - With averages for other clinics of a similar
    - Urban or rural location
    - Size – now based on total patients, not medical patients; 5 categories:
      - <5000
      - 5000-9999
      - 10,000-19,999
      - 20,000-49,999
      - 50,000+

# Performance Comparison Report (cont'd)

- Number of sites: 6 categories
  - 1
  - 2-5
  - 6-10
  - 11-15
  - 16-20
  - 20+
- Above 25% Farmworker (43 / 1088)
- Above 25% Homeless (85 / 1046)
- With national 25th, 50th, and 75th percentiles

# UDS Summary Report

Other Third Party	1,649/7.96%	231,163/8.30%	3,059,969/16.32%
<b>Patients By Income Status (% Known)</b>			

# UDS Summary Report (cont'd)

- Grouped into data on patients, visits, staffing, quality of care, income, and expenditures
- Data are available for grantee, state and nation

# Formula Guide

- This is a separate document available in the resources section
- Document includes:
  - A listing of all variables (e.g., medical cost per medical visits) and a precise statement of the cells in the UDS used to calculate measure
  - A description of the statistics used
  - Occasional year-specific notes

# Technical Assistance
